

covid 19

Exposed to
carry viruses
droplets land
on nearby
surfaces

These
droplets can
also infect
nearby
people

At least from
each other
stay meters
apart"

Avoid crowded
places like
halls and
places of
workshop

The virus
multiplies rapidly
killing cells and
leaving and
spreading to
other cells

Avoid
travelling
and work
from home

Inside the
body the virus
attacks and
enters human
cells

Coronavirus
can survive
for days on
some
surfaces

When
someone
infected with
COVID1 or
coughs
